Summary

Software Engineer Intern skilled in **React, TypeScript, Django, and scalable full-stack systems**. Experienced in **conversational AI interfaces, CRM systems, real-time APIs, and workflow automation**. Passionate about building **high-performance, user-centric applications**.

Skills

Languages: Python, JavaScript, TypeScript, C++, SQL
Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS, Figma, Redux, Zustand, Context API
Backend & Databases: Node.js, Express.js, Django, REST APIs, Microservices, MongoDB, PostgreSQL, Supabase, Prisma
DevOps: Docker, Redis, RabbitMQ, Celery, Git, Linux

Experience

Software Engineer Intern

June 2025 – Present

Affinsys AI

Bengaluru, India

- Led development of **GPT-style conversational UI** using React.js + TypeScript, enabling real-time chat via WebSockets and handling **500+ user interactions daily** with scalable state management using Zustand/Redux.
- Engineered **Sales Pipeline (CRM)** by integrating Django-based microservices, enabling end-to-end **lead lifecycle management** across 1000+ leads, contacts, and company interactions.
- Built **React dashboards** to centralize lead and customer data, reducing manual tracking efforts by **30%** and improving operational visibility for internal teams.
- Migrated campaign workflows to a **Celery + RabbitMQ** distributed system, improving job reliability and reducing asynchronous processing delays by **25%**.
- Developed **dynamic lead capture forms and API integrations**, automating product mapping and reducing manual workflow dependencies by **40%**.

Projects

MiniCRM Platform | *Next.js, Node.js, MongoDB, Redis, OpenAI API*

March 2025 – April 2025

- Built a full-stack CRM platform supporting **100+ users and handling real-time campaign operations** with analytics and automation.
- Integrated **AI-powered automation** using OpenAI APIs for natural language to segmentation rule generation and campaign message suggestions.
- Implemented **asynchronous processing pipelines** using Redis and background workers to support scalable marketing operations.
- Developed real-time analytics dashboards for monitoring campaign performance and decision-making.

Welthy – AI Personal Finance Platform | *Next.js, React, Supabase, Prisma*

February 2025 – March 2025

- Built an **AI-powered finance management platform** enabling real-time expense tracking, financial insights, and automated budgeting.
- Implemented **secure authentication and serverless APIs** using Clerk and Next.js backend architecture.
- Designed responsive dashboards and financial analytics features to help users monitor spending patterns.
- Integrated event-driven workflows using **Inngest and Arcjet** for secure background job execution and rate limiting.

Awards & Certifications

- **National Runner-Up – Sopra Steria ISC 2025:** Ranked among top teams from **3900+ students and 518 teams** nationwide.
- **Cloud Computing Certification – NPTEL SWAYAM (IIT Kharagpur) – 2024**

Education

Lovely Professional University

B.Tech Computer Science and Engineering

2022 – 2026

CGPA: 8.3 / 10
